

Addie Grilli

Licensed Office Associate

I am proud to offer my services as a member of Pam's team.

I have been licensed in California since 1987—I like to say I started in real estate when I was a child with my parents taking me to weekend open houses.

I find that my extensive experience, and hundreds of successful transactions during the 26 years, are very useful in my current position as administrative support for Pam. I find that working with Pam has sharpened my organizational skills as well as given me the opportunity to assist in the buying and selling of homes.

It is my goal to make every transaction a success, and to help Pam shine in her client's eyes.
