

theREALESTATEmovement.com

The real estate industry is driven by our economy and it's people.
As those two components change, so do we.

KG REALTY
Innovative. Virtual. Transparent.

At KG Realty, we are very intentionally and deliberately re-designing real estate.
Our forward-thinking business model revolves around two basic concepts:
LOW COST & CLIENT FOCUSED.

We analyze. What's working well in the industry and what demands change?

We evolve. We design an innovative, virtual and transparent system that works. For everyone.

INNOVATIVE

Our Realtors and support staff are professionals, utilizing essential cutting-edge technology. What sets KG Realty apart is combining those tools with personalized service. Our Realtors are knowledgeable, local experts building their business under KG's simple but solid premise... "Always have our client's best interest at heart & work diligently to exceed their expectations".

VIRTUAL

Re-designed. What exactly does that mean? We're virtual. It's an internet based infrastructure connecting our clients with quality real estate professionals. At KG Realty we operate much more efficiently. KG Realty founder, Katie Gagnon implemented a financial system that is simultaneously advantageous to the company, it's agents and most importantly... our clients.

TRANSPARENT

The real estate industry is complex and real estate transactions are significant. KG Realty strives to provide clarity & transparency to our clients every step of the way. Our unique service is streamlined and well-executed. Transparency is at our core. We are local and growing, with a solid reputation and impressive results.

KG Realty is a high quality, low cost, stream-lined and client focused real estate company.
It's Real Estate... Re-designed.
