

WHAT SENIORS AND THEIR FAMILIES ARE SAYING ABOUT PAM

“You made the sale of my Mom’s home a painless experience. I think your experience helped us determine what was important to update and what was acceptable to leave as is, and we couldn’t have been more satisfied with your attention to detail, organization, and follow through. I was also impressed with your list of professionals who worked together to help prepare the home for sale. There were too many tasks for my Mom to handle alone or for me to handle while juggling my own family and work. You made it easy for us.”

-Los Altos Family

“We are so very grateful for the way you handled the sale of our home. At the first meeting you came with better materials than any of the real estate agents we spoke to in town. You answered all our questions, and exuded confidence that allowed us to feel comfortable trusting you from day one. In the weeks that followed, with unflagging energy you guided on how to best prepare our home for sale. We benefited from your experience, your suggestions were excellent, and you were never afraid to speak your mind. All of your team that helped prepare our home for sale were competent, pleasant, trustworthy, and did a great job. It was clear that you had our best interests at heart. Of course, we were thrilled with the results. Truly, we think you’re the best, and we recommend you to anyone on the Peninsula. Thank you again for helping make our dream retirement possible.”

-Los Altos Empty Nesters, 70s

“I just wanted to thank you from the bottom of my heart for taking such good care of my Mom through her home-selling process. Your sensitivity to a few emotional complexities is most appreciated. We all thought you did a fantastic job helping Mom accomplish her goal of being done with the house by the end of the year. You are indeed a credit to your profession.”

-Los Altos Family

“Pam Blackman is by far the best real estate agent I have ever been associated with—she is diligent, precise, and very professional. Recently she was my listing agent of my home in Los Altos, and helped me buy a home in Morgan Hill to be closer to my adult Son and wife. I have lived in Los Altos for 55 years. I have built houses and sold them. I have been in numerous transactions. In my opinion Pam Blackman is everything you could want in a real estate agent.”

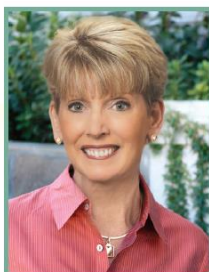

-Los Altos Seller, 80s

“From the first day we opened the discussion of the property to the date escrow closed, Pam made the experience easy and pleasant. She was attentive to every detail, kept every appointment, and generally removed all of the stress that can accompany the sale of a property. The people with whom she deals (inspectors, plumbers, electricians, cleaners) were on time, efficient and took care of the detailed tasks. Pam is the consummate real estate professional, is delightful to work with on a personal level.”

-Los Altos Seller, 80s

“Recently, my husband and I sold our house of over twenty-two years with the expert guidance of Pam Blackman. It was a difficult journey to embark on filled with emotion. But with Pam’s knowledgeable assistance and excellent representation, we accomplished our goal. In addition, my Mother was in the position to sell her home as well. Since we knew we were in good hands, there was no question we would have Pam handle Mom’s business—there were four separate parties on title. Pam juggled every aspect perfectly, consistently relaying pertinent information to all involved in a timely manner. At one point, my Mother needed transportation to an escrow office along with guidance signing paperwork. Pam kindly stepped in and assisted. Pam’s team was impressive as well. They were easy to work with and just as caring throughout the preparation process. I have known few people as professional and detail oriented. She never missed a beat on either transaction. Her knowledge of the real estate world is extensive and impressive—and quietly mixed with a caring touch.”
